Product: Compact Flash Card for QuickPanel
IC754ACC0512MEM-B

This product has been updated to replace obsolete components. This change does not affect product functional compatibility.

Replaces

IC754ACC0512MEM-A

Product Documentation

Refer to the relevant QuickPanel User's Guide for installation and use instructions.

Functional Compatibility

The compact flash (CF) card included in the product listed above is completely compatible with all models of QuickPanel View and QuickPanel Control and with the Compact Flash specification v4.1 (<http://www.compactflash.org/>).

New Features and Enhancements

The new CF card has a *minimum* of 512MB of memory. GE Fanuc reserves the right to provide the user with a CF card that has more memory.

Operational Notes

Please observe all installation, and use instructions for CF flash cards in the relevant QuickPanel User's Guide.
